

Brad Redden is an enthusiastic, solutions-oriented leader with a proven track record of unsurpassed commitment and dedication to producing results. Brad delivers steadfast, clear thinking and problem-solving and can consistently provide compelling vision in the most complex and fast-paced environments.

Experience Highlights

Stakeholder engagement, Facilitation, and Communication

- ★ Deep engagement with staff and council to bring forward the best solutions. Active engagement with staff to identify the full scope of facts and possibilities. Added value and depth to the reports brought forward to the council. Worked to be seen as a resource by fellow councilors.
- ★ Long-standing engagement with Arlington Waterkeepers and Save Our Old Forests; citizen science initiatives in Annapolis County.
- ★ Integrated stakeholder feedback from public consultation meetings, public comments, and one-on-one engagement into amendments for the Annapolis County Land Use By-Law and Planning Strategy.
- ★ Strategic and technical consulting for several grass-roots citizen-run, political, and environmental stewardship organizations, providing technical information on the environmental implications of the mineral extraction industry, and strategic political advice

Project Management, Research, and Organizational Skills

- ★ Managed year-end mineral assessment report writing while supporting planning work for the next exploration season, and technical documentation to support financing and venture capital recruitment by providing data analysis and visualization.
- ★ Experience organizing mineral exploration campaigns, extensive home renovations, and scientific conferences.
- ★ Background research, data compilation, base, and thematic mapping for developing new exploration targets in various northern Ontario greenstone belts.

Land-use planning, Municipal Government experience

- ★ Participated in numerous public engagement sessions as the county-wide plan was developed. Worked very closely with planning staff on amendments to Annapolis County Land-use planning documents.
- ★ 4 years on municipal council, 2 years as Deputy Warden.
- ★ 4 years on the Annapolis County Planning Advisory Committee. appointed for a further 2 years
- ★ Appointed to a working group advising the province on Action 8 commitments to Municipalities in the Provincial Plan for Coastal Protection to develop draft recommendations for land-use by-laws for municipalities to adopt for coastal protection.

Sustainable Development practices

- ★ 3 years in the mineral exploration industry, sustainability and project legacy are constant conversations and are essential to mine life planning and marketing.
- ★ Board-level oversight of Kings Transit's initiation of transition to electrification.

Team efforts and Collaborations

- ★ Member of a highly motivated team that completed an aggressive 18-month drill program in 10 months, improving data quality and with a better-than-industry-average safety record. Completing this project in 10 months made it the largest drill program in the world that year.
- ★ Rebuilt many inter-municipal relationships in the Annapolis Valley and guided the Municipality of Annapolis County back into Valley Waste membership.
